- Please note that this sequence can vary widely depending on the undeclared student's area of interest. For example, a student interested in the sciences may pursue a 4 hour Lab science in their first semester. This sequence is designed so that students will be taking many classes geared toward fulfilling their general education requirements (GER), while also encouraging them to explore electives that may guide them into a major.
- Students should work closely with their faculty mentor/advisor in course selection.
- Students may find more resources for exploring their major at www.milligan.edu/career/#career-planning.
